

ELECTRICAL FIELD EVALUATION SERVICES

Who We Are

We are a certification laboratory that provides Field Evaluation services for your electrical field evaluation requests. QAI is a testing, inspection, and certification body that is recognized by the regulatory authorities in the USA and Canada.

What We Do

At QAI we provide field evaluation services to all electrical equipment 600 volts or less. We follow the latest UL standard and NEC requirements depending on what your need is. We work closely with the Authorities Having Jurisdiction to ensure your product field evaluation meets the jurisdictions requirements.

With that service, you can expect QAI to:

- Provide one point of contact throughout the certification
- Provide a seamless evaluation process on products like CNC machines, controls panels, and environmental chambers with experienced staff helping every step of the way
- Experienced engineers handling your field evaluation services.

About QAI

QAI is a testing, inspection and certification agency of Electrical Products Building Products, Recreational Vehicles and Factory Built Structures. Founded in 1994 by a group of experienced industry professionals, QAI is an independent 3rd party organization that has established an international reputation for offering cost effective solutions and an unparalleled client experience.
