Conventional wood-frame construction with engineered roof truss systems.

**Electrical Ratings:**

120/240V, 60Hz, 200A max, 1 Phase

**Heating/Ventilation:**

Units are equipped with electric baseboard heaters and Heat Recovery Ventilator

**Plumbing:**

Conventional drain and vent system to a maximum of 240 hydraulic fixture units.

**Gas Systems:**

None.

Notes: The Manufactured Homes included in this listing are manufactured at a central facility and transported to the site. These units, when installed on site, are equipped with normal facilities for connection to municipal water, sewage and electrical services. QAI certification covers the construction of the homes and any factory installed plumbing and electrical services and is intended to obviate the necessity of further inspection by the local regulatory authorities except for site connections to services and for site mounting features.

The materials, products or systems listed herein have been qualified to bear the QAI Listing Mark under the conditions stated with each Listing. Only those products bearing the QAI Listing Mark are considered to be listed by QAI. No warrantee is expressed or implied, and no guarantee is provided that any jurisdictional authority will accept the Listing found herein. The appropriate authorities should be contacted regarding the acceptability of any given Listing. Visit the QAI Online Listing Directory located at [www.qai.org](http://www.qai.org) for the most up to date version of this Listing and to validate that this QAI Listing is active. Questions regarding this listing may be directed to [info@qai.org](mailto:info@qai.org). Please include the listing number in the request.
