

RV ELECTRICAL PRODUCT COMPONENT CERTIFICATION

Who We Are

QAI is a testing, inspection, and certification body that is recognized by the regulatory authorities in Canada and the US to not only certify recreational vehicles and park models but also the electrical products and components used within the recreational vehicles.

What We Do

QAI helps manufacturers of recreational vehicles and trailers get their electrical RV products and components certified to meet Canadian and US requirements.

With that service you can expect QAI to:

- Provide one point of contact throughout the certification
- Help you find trusted solutions to certify products like RV lights, fans, controllers and more...
- Help you get your product to market seamlessly with experienced staff helping every step of the way

About QAI

QAI is a testing, inspection and certification agency of Electrical & Building Products, Recreational Vehicles and Factory Built Structures. Founded in 1994 by a group of experienced industry professionals, QAI is an independent 3rd party organization that has established an international reputation for offering cost effective solutions and an unparalleled client experience.
