

CERTIFICATION FOR PREFABRICATED PANELS FOR PANELIZED ASSEMBLED STRUCTURES

About The Program

QAI offers certification of prefabricated buildings, and partially or fully enclosed modules and panels for buildings.

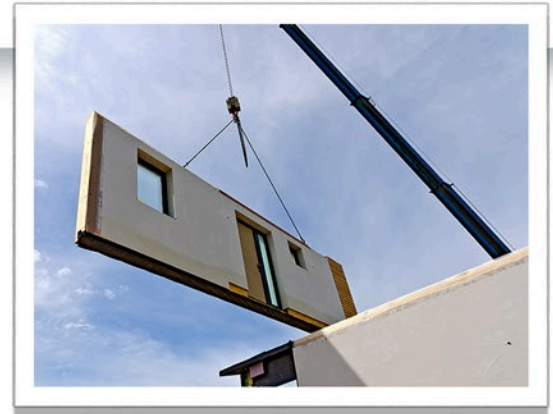

Certified prefabricated panels for panelized assembled structures may be installed throughout Canada and accepted in any jurisdiction that accepts "CSA A277 Procedure for certification of prefabricated buildings, modules, and panels".

From evaluation of the components in a factory built panel system, through structural and fire performance testing, to final evaluation of compliance to the required building code, QAI offers services to aid manufacturers sell their products.

The right solution for your business

QAI's certification program offers competitive pricing, open communication, speedy approval turnaround time, and expanding your capability of selling your prefabricated panels within Canada. QAI prides ourselves by providing access to world markets through excellent customer service.
