

QAI TO OFFER TESTING TO PROPOSED RVIA / RVEC-1 STANDARD

"RECOMMENDED PRACTICE -
TESTING REQUIREMENTS
OF EXTERIOR COMPONENTS
FOR RECREATIONAL VEHICLES"

About the RVIA / RVEC-1 Standard

This standard was developed in part by the RVIA to address the proper laboratory testing for exterior structural components such as patio railing systems, retractable patio decks, patio and ramp doors, and exterior entry steps installed on recreational vehicles.

The standard provides minimum safety criteria of these exterior components when installed and used on recreational vehicles.

Get ahead of the curve and plan to have your products tested to these requirements to show added due diligence and compliance with recommended practices.

Benefits of working with QAI:

- Well recognized and established testing agency servicing the RV industry.
- Expert knowledge. Over 20 years of experience performing product testing.
- Responsive and easy to work with.
