BUILDING PRODUCTS LISTING PROGRAM

Customer: Ectek Building Material Inc.
Class: Cementitious Backing Boards
Location: Concord, ON Canada
Website: ectekbm.com

Listing No. B1127-1
Project No. B1127-1, Edition 1
Effective Date: September 14, 2021
Last Revised Date: N/A
Expires: N/A

Standards:

Product: Megaboard magnesium oxide board.

Markings: Product is marked with labels that include the following information:
  a) Manufacturer’s name.
  b) Product name.
  c) ASTM E136 – Classified Non-Combustible
  d) Traceability code.
  e) QAI logo shown here:

Labels are applied to palletized finished products to ensure visibility on the jobsite.

Ratings: The following outlines Ectek Megaboard results determined through testing to the noted standards:

Ectek Megaboard magnesium oxide boards are classified as non-combustible per ASTM E136.

Assemblies, when constructed with Megaboard as detailed provide pressure resistances determined in accordance with ASTM E330/330M as noted:
### Minimum Megaboard Thickness

<table>
<thead>
<tr>
<th>Minimum Megaboard Thickness</th>

<tbody>
<tr>
<td>¾” (19 mm)</td>
<td>2” x 6” (51 mm x 152 mm)</td>
<td>24” (610 mm)</td>
<td>24” (610 mm)</td>
<td>#8 2” (51 mm) length wood screws spaced at 9” (230 mm) on center along studs and cross bridging.</td>
<td>&lt; 0.044” @ 100 psf</td>
<td>&gt; 330 psf</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>&lt; 1.1 mm @ 4.8 kPa</td>
<td>&gt; 15.8 kPa</td>
</tr>
</tbody>
</table>

Note 1: Pressure capacity is for positive direction only. Negative direction loading including allowable fastener capacities are outside the scope of this listing.

Note 2: Fasteners noted were not evaluated for additional performance requirements including compatibility outside the pressure resistance. Please see Ectek recommended fastener types for products compatible for use with Megaboard.

Assemblies, when constructed with Megaboard as detailed, provide shear diaphragm resistances determined per ASTM E455 as noted:
