Product: Factory Built Modular Homes

Markings: All markings must be permanent and visible after installation.

1. The QAI label (item 1067, black with gold, 3-1/2" diameter) is normally located in close proximity to the electrical panel and includes:

- Certification label serial number

- QAI certification logo with the “C” Identifier
- “Modular Homes”

QAI logo shown here:

2. The specification nameplate (item 1068, 8-1/2” x 14” size) is located in close proximity to the electrical panel and includes:

- Manufacturer’s Name and Address
- Date of Manufacture
- Model Serial Number or Product Code
- Foundation Type (Perimeter Foundation Wall or Piers)
- Floor live Load
- Specified Snow Load (1/50)
- Seismic Response  $S_a$  (0.2)
- Hourly Wind Pressure (1/50)
- Envelope Effective Thermal Resistance
- Windows/Doors/Skylights Thermal Characteristics
- Outside Design Temperature (Heat Loss or Heat Gain)
- Factory Installed Appliances
- Site Installed Components, Assemblies, and Systems
- Electrical Systems Voltage, Frequency, and Amperage

3. Other Markings as required by the relevant codes.

*Note 3: The QAI label and specification nameplate are available from QAI and must be applied at the factory.*

**Models / Ratings:** Single or multi-family dwellings classified under one major occupancy (*Group C – Residential*), constructed in single or multiple modules, up to 3-storey configuration. Modular homes under this scope have a building area not exceeding 600m<sup>2</sup>.

Multi-residential buildings are designed and constructed within the limitations of Part 9 with vertical fire and sound separations. This certification applies to the construction of detached, semi-detached and row houses that have no shared egress facilities, no dwelling units above or below them, no shared service space such as attics, crawl spaces, service shafts or service rooms.

This listing does not include multi-residential buildings requiring horizontal fire and sound separation, apartment buildings, hotels and motels, and/or any buildings designed with multiple major occupancies.

For a full list of structures covered under this occupancy please refer to Notes to Part 3, A-3.1.2.1.(1) Major Occupancy Classification in the National Building Code, Quebec Construction Code, Chapter I – Building, Ontario Building Code and.

**Structural:**

Conventional Wood Construction within the limitations of Part 9 of the National Building Code, Quebec Construction Code, Chapter I – Building, and Ontario Building Code

**Electrical Ratings:**

120/240V, 60Hz, 200A Max.

**Heating/Ventilation:**

Primary central forced air furnace Modules may be equipped with electric baseboard heaters and /or air conditioning.

**Plumbing:**

Conventional drainage and venting systems to a maximum of 240 hydraulic fixture units.

**Gas Systems:**

Modules may be equipped with propane appliances and equipment.

**Notes:** Modular Homes included in this listing are manufactured at a central facility and transported to the site. These modules must include provisions for on-site interconnections, connections to municipal services (water and sewage), electrical power and propane supply. QAI certification covers the construction of modular homes including any factory installed plumbing, electrical and propane services, appliances, equipment and fixtures. QAI certification is intended to obviate the necessity of further inspection by the local regulatory authorities except for site connections to services or to other modules and for site installed features.

Site installation of products must be done according to manufacturer's installation instructions and in compliance with the requirements set by the local authority having jurisdiction.

The materials, products or systems listed herein have been qualified to bear the QAI Listing Mark under the conditions stated with each Listing. Only those products bearing the QAI Listing Mark are considered to be listed by QAI. No warrantee is expressed or implied, and no guarantee is provided that any jurisdictional authority will accept the Listing found herein. The appropriate authorities should be contacted regarding the acceptability of any given Listing. Visit the QAI Online Listing Directory located at [www.qai.org](http://www.qai.org) for the most up to date version of this Listing and to validate that this QAI Listing is active. Questions regarding this listing may be directed to [info@qai.org](mailto:info@qai.org). Please include the listing number in the request.
