

# GLOBAL EXPERTS FOR TESTING, CERTIFICATION, AND INSPECTION SERVICES

QAI provides comprehensive testing, certification, and inspection services for your products from foundation to rooftop and across a wide range of products in diverse industries. Client-focused; QAI's solutions are tailored to meet your needs, budget, and timeline while ensuring compliance with current standards. Expertise, quick turnaround, and commitment to no surprise costs make QAI a trusted partner in bringing your product to market efficiently and reliably.

## TESTING

QAI accredited laboratories in the USA and Canada offer a wide range of services including building products, EMC, electrical safety, fire tests, materials analysis, geotechnical, and much more. ISO/IEC 17025 accredited services include full-scale testing for durability, flammability, structural strength, and failure analysis. On-site and field testing are available for many products and industries.

## INSPECTION

From factory inspections to complete product analysis, QAI partners with our clients to ensure manufacturing processes and products meet required standards. Whether you need a factory audit, fire door field labeling, electrical field evaluation, roofing inspections, failure analysis, or reverse engineering, we're here to help. Need a custom project? We will design a custom program to meet your exact requirements.

## CERTIFICATION

Certification programs ensure product conformity to standards through evaluation, testing, and inspection. QAI labels are recognized globally for various industries, ensuring compliance and trust. We schedule your testing and certification efficiently, helping you get to market faster, conforming to all necessary standards.

## About QAI

Founded in 1995, QAI is an independent third-party testing, inspection, and certification organization with expertise in building products, electrical, EMC, materials testing, geotechnical engineering, metallurgical and failure analysis. Supporting a wide variety of industries and products, QAI is trusted by leading global manufacturers. Ensuring your product meets regulatory standards, reaches the market swiftly, while supporting you throughout the process.
