CERTIFICATION, TESTING & INSPECTION

QAI IS A GLOBAL POWERHOUSE FOR INDEPENDENT THIRD-PARTY TESTING, INSPECTION, AND CERTIFICATION. Our services cover an expansive list of industries and markets, and we take pride in being able to handle even the most demanding projects.

CERTIFICATION

OUR CERTIFICATION PROGRAM OFFERS ACCREDITED EVALUATION AND ANALYSIS OF THE PRODUCT FOLLOWED BY INSPECTION FOR CONFORMANCE TO STANDARDS AND QUALITY PROCEDURES. QAI labels are recognized in the US, Canada and beyond. Our labels for construction materials, electrical products, recreational vehicles, factory built structures, plumbing products, gas appliances, field evaluations and inspections verify that your products meet National standards so you can effectively sell your product. QAI builds trust in your product and brand.

The QAI Registered Trademark shows compliance when a Code or regulation calls for a product or system to be “listed and labeled” to a standard, by an agency accredited to ISO/IEC standard 17065. Very often we have our client certified and approved for market in less than half the time of other agencies.

TESTING

QAI OFFERS ACCREDITED LABORATORIES IN USA AND CANADA FOR BUILDING PRODUCTS, EMC TESTING, ELECTRICAL SAFETY TESTING, FIRE TESTING AND MANY OTHER INDUSTRIES. QAI provides a complete array of ISO/IEC standard 17025 accredited testing services to support manufacturers in many different industries – from full-scale assemblies to small-sized materials and properties. Our in-house capabilities include full-service laboratories offering testing for fire resistance, flammability, structural strength, weathering and durability, material properties, electrical, plumbing, gas and a wide range of other tests. We also offer field testing and on-site testing at your location. QAI provides electromagnetic compatibility (EMC) testing of electronics including commercial, industrial, medical, IT, military, aerospace and wireless devices.

INSPECTION

FROM FACTORY INSPECTIONS TO FIELD LABELING OF INSTALLED SYSTEMS, QAI HAS YOU COVERED. QAI partners with our clients on a regular basis to monitor and inspect their manufacturing process, final products, and quality documentation for compliance. Our team of qualified service reps will help you evaluate your manufacturing plant to assure conformity. Our inspection services include Fire Door Field Labeling (NFPA 80, NFPA 252), Third-Party Quality Control Factory Audits (ISO/IEC standard 17020 & ICC-ES AC10), Electrical Field Evaluation, Field-installed Roofing and Building Envelope Inspection, Factory Built Structures, Recreational Vehicles, Building Products, Windows & Doors, Roofing Products, along with a variety of special project inspections.

WHY CHOOSE QAI

AT QAI YOU CAN BE SURE YOU WILL RECEIVE UNEQUALED ACCOUNTABILITY THAT EXTENDS BEFORE, DURING AND AFTER EACH PROJECT PHASE. Our dynamic architecture allows us to offer scalable, low-overhead solutions to both the smallest and largest of clients. And unlike many companies, “SERVICE” and “QUALITY” are not just buzzwords we throw around lightly. These two concepts are the bedrock foundations of our entire organization. Let us tell you what SERVICE and QUALITY mean to us: they mean you are able to work with a progressive organization, where communication and transparency are paramount. Where flexibility is a way of thinking, and convenience and friendliness are a way of life. QAI offers you accurate data, recognized accreditations, and timely services with no budget surprises. That’s the standard we shoot for and meet, every day. Our company is built around the following four values: **#1 SERVICE, #2 QUALITY, #3 STAFF, #4 TIMELY.**

SERVICE

Your project will start with a dedicated and friendly, single point of contact that allows streamlined communications and planning right from the start. With flexibility being a key, we can accommodate your timelines, scheduling and offer deliverables when and where you need them. In addition, we encourage our clients to dive deeper into the process and join us for testing. Options may exist for QAI to offer you the ability to witness your testing in-house.

QUALITY

We pride ourselves on our motto: “No budget surprises.” You can be sure with our detailed team, we will keep you on-time and on-budget throughout the entire process. With all recognizable accreditations in place, lab uniformity / calibration, accurate and repeatable data – your project is guaranteed to run smooth and easily.

TIMELY

Our team understands your goals, and is prepared to do everything we can to get your product certified and to market. You’ve gone through a lot to get to this point – Innovation, Research and Development, Marketing, etc, and now is the time to complete the last steps as quickly and efficiently as possible.

STAFF EXPERIENCE

You can be sure your product will make it to market with the finest minds leading the charge. QAI actively recruits the best and brightest talent to run our programs. Our high-level staff stays up to date with all the latest accreditations and changes / legal movements to help navigate the hurdles for you, to ensure a seamless project.
